Questions for Alumni Survey   Copy

Are you a member of professional societies? If "YES" mention Society name(IEEE, CSI, IETE etc.) otherwise write "NA"   Copy

97 responses

Relevance of curriculum in your Job:

97 responses

NA

Yes

No

Relevant for the base of my research

Somehow related but that's also because I have changed my field to management

To achieve goal

Only few subjects were relevant

relevant

Provide a base for the Kickstart of my professional career through which I have excelled and reach the current position

Good

It completely depends on the courses offered in the university

It has big role like it's not only help me to do the things but also it's helping to learn the things on daily basis.

Very less relevance

Na

Knowledge of management

80% relevant

Software Management

Not Much

Quite relevant

Gained Analytical thinking, Communication skills really help me in my Developer role.

programing language and os have lots of relevance in my job

Doing projects in curriculum which helps in working as a team

N/A

Direct correspondence

Yes, a bit. As a Teradata sql developer, knowledge of DB helped me.

4/10

Computer Programming language like c , java , DBMS , python , ms office , software engineering

Not much significant

Fully relevant

Applied Mathematics

very similar

Very much relevant

Course curriculum is practical oriented

NOT YET GET JOB, BUT THERE IS NO RELEVANCE AT ALL TO GETTING A JOB. AS TO GET JOB THE PROFICIENCY LEVEL SHOULD BE NEEDED IN DIFFERENT HORIZON THOSE WOULD NOT SERVE HERE BY THIS CURRICULUM .

Higher study

Project Management, ERP

Relevance

Curriculum helped me to grow independent in Research

yes relevant

Syllabus design is very good but should be focused more hands on experiment.

Well crafted

Data science discussion

To know the epigenetics of diseases

Good enough

Cricket

System engineer

Upto mark

I currently work in Java which was taught as one of the subjects in my curriculum

Taking classes of btech n python

Research assistant in the department of computer science and engineering

None

Great

My course curriculum has direct relevance in my current work

Relevant

Microbiology

Designing

Java

na

Nil

Highly relevant

Some of the courses that I took during my PG studies are helping me in my PhD. The networking, database, cloud computing are some of those.

It helps me to grab the basic knowledge of the coding.
