SEMESTER-I

**Paper: Visual Language and Perception**

**Code: MVC101**

**Contacts Hours / Week: 2L**

**Credits: 03**

**Content**

**Module 1**

The Psychology of Perception-

Relationship between syntactic, semantics and pragmatics: Explorations in visual abstraction

Analysis of Aesthetics: the structure of Appearance. Form in nature, Exploration of visual images with analogies from nature. Thinking with visual images

**Module 2**

Basics of visual language- Its evolution and its Form, Function and representation with in the design elements and principles. Thinking by visual image, Seeing-pattern seeking, analytical seeing, cues to form and space, Study of Visual Language- Mediums and their representation. The science of vision- the dynamic properties of vision, The brain and vision, visual cognition, perceptual organization and Gestalt psychology. Visual perception-depth, dimension, illusion, figure and form, perception and knowledge Critical study of visual elements, features and principles. A study of indigenous design and painting, both contemporary and traditional to understand and analyze a variety of styles and visual language.

**Module 3**

Human Perception related to Visual Design applications. Ways of seeing.

Case studies of classical application in Visual communication

Understanding perception and paradigms to stretch the design boundaries

**Suggested Readings:**

1. Elements of Design, by Gail Greet Hannah, Princeton Architectural Press
2. Graphic design manual, Principles and Practice. Armin Hoffman; Arthur Niggli Publisher, Multilingual edition.
3. Signs and Symbols: Their Design and Meaning by, Adrian Frutiger; Ebury Press; New edition
4. The Art of Color: The Subjective Experience and Objective Rationale of Color, Johannes Itten; Wiley Publications
5. Language of Vision, Gyorgy Kepes; Dover Publications Inc.
6. Ways of Seeing, John Berger, Penguin Books
7. Art and Visual Perception, Rudolf Arnheim. University of California Press;
8. Visual Thinking, Rudolf Arnheim, University of California Press;
9. Cognition and the visual arts by Robert L Solo MIT Press
10. Art of looking sideways by Alan Fletcher
11. Visual Intelligence: Perception, Image, and Manipulation in Visual Communication, Marie , Anne; Barry Seward; Publisher: State University of New York Press
12. Experiences in visual thinking by Robert H McKin
13. Perception & Imaging by Richard D Zakia. Focal Press
14. Indian Symbolology, by Trivedi, Kirti (ed.); IDC

## **Content**

### **Module 1**

Introduction to Design Methodology. Introduction to basic Design theories in the context of design. Philosophy of design methods, History and development of design methodology. The role of design and the Designer- The scope of different design disciplines. Method of systematic design, Nature of design activity and process. Study through case studies the emerging areas of design

### **Module 2**

Introduction to the thoughts and perspectives, concerns and issues in the context of design  
Design Process- Task Analysis and activity mapping, problem identification to concept  
Opportunity mapping and design brief creation. Developing different design directions

### **Module 3**

Introduction to ideation and conceptual tools and their applications  
Brainstorming, Synectics and lateral thinking. Clustering and concept generation. Articulation of design solutions and alternatives. Process documentation

### **Suggested Reading:**

1. Design Methods Seeds of Human Future, Christopher Jones, Wiley, Interscience
2. Developments in Design Methodology by Nigel Cross. John Wiley and Sons
3. Contextual Design, by Hugh Beyer and Karen Holtzblatt, Morgan Kaufmann
4. The Reflective Practitioner: How Professionals Think In Action, Donald Schön, Basic Books
