D.O.No.F.10-1/2010((CPP-II))

May 11, 2010

Dear Sir/Madam,

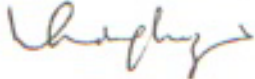

As you are aware, various kinds of radioactive materials/chemicals are being used in the laboratories for research purposes in Universities and Colleges. You will appreciate the importance of following the rules prescribed by different regulatory authorities for the procurement, utilization, storage and disposal of such materials. You will also appreciate that improper disposal of such materials can be extremely harmful not only to humans but also to the environment. You are, therefore, requested to follow norms prescribed by the Atomic Energy Regulatory Board (AERB), Bhabha Atomic Research Centre (BARC), Board of Radioactive Isotopes Technology, and similar bodies for the purchase, utilization, storage and disposal of radioactive and hazardous materials/chemicals. Atomic Energy Commission has also laid down Atomic Energy (Safe Disposal of Radioactive Wastes) Rules, 1987 in this regard.

You are requested to kindly instruct all departments/research institutions in your University and affiliated colleges in this regard.

UGC has also separately constituted a Committee for having wider consultations and framing guidelines in this regard which will be communicated to you soon.

With regards,

Yours sincerely,

  
(N.A. Kazmi)

The Vice-Chancellor  
West Bengal University of Tec-  
hnology, BF-142, Salt Lake,
